Functional and characteristic
furniture for learning environment.

Skandiform has since 1962 shaped furniture that brings personality and harmony to spaces where people meet. Flexible solutions that combine quality with design, and sustainability with innovation.

It provides good conditions for creating fantastic learning environments for students and educators with Skandiform's products.

Canteen / Cafeteria

Furniture and furnishings suitable for flexible canteens that meet the tough demands of good sound level and wear.

Core armchair with Slitz table.

Sustainability

Sustainability

Skandiform defines sustainability as a way of working that values a holistic approach comprising environmental, quality, and work environment aspects. With this mind-set, we develop timeless furniture designs, always keeping comfort and life cycle in focus.

Design

We ensure that the furniture we produce is well thought through, sustainable by having as little an impact on the environment as possible, can be recycled and gives a high level of comfort and wellbeing. We take care to select materials and suppliers that can meet our high standards. Our products are made to stand the test of time from both a quality and design perspective.

Social responsibility

We strive to maintain good working relationships throughout our entire value chain in order to create a safe and progressive work environment that minimises injuries and ill health. We conduct risk assessments of our suppliers and enter Code of Conduct agreements. Internally we operate within the framework of work environment certification in accordance with ISO 45001.

Certifications

In support of our sustainability work, Skandiform AB maintains a certified operating system with processes and procedures that comply with ISO 9001, ISO 14001 and ISO 45001. To ensure the origins of our wood supplies, we are also certified in accordance with the FSC Chain of Custody. Sustainability requirements are addressed in dialogue with our customers and other interested parties and through the environmental and sustainability labelling with which we mark our products, such as Möbelfakta.

Agenda 2030

The UN's Agenda 2030 is a collection of global sustainability goals. It's an obvious step for Skandiform to engage in and contribute to this. We are contributing to several of the Agenda's goals through our sustainability efforts.
